Tips for Showing

Daffodil/Narcissus: If bulbs are grown in a pot, when the flowers open move the pot into the shade to prevent the sun from causing the leaves to ripple.

Pansies: A nice size, clean with good colour. It is easier to find a mixed group than to find all of one colour. Put stems into water as soon as you cut them and pinch the ends of the stems to take up more water.

Foliage Plants: Clean the leaves and remove any dead ones. One or two flowers are permitted, although they are best removed.

Flowering Shrubs: Flower buds are not considered to be flowers.

Roses: Show the best you have got with nice long stems. If not quite open then tease the petals out. Do not remove any petals. See that flowers are free from greenfly. Split the end of the stem and plunge into deep water overnight.

Cluster Roses: Take off dead or damaged petals and remove seedpods. Split the end of the stem and plunge into deep water overnight.

Sweet Peas: See that the flowers with good colour are well placed on a long stem. Put into a vase with Oasis with one leaf placed at back and one at the front, upside down.

Fuchsias & Geraniums: Must be free of all pests. Remove all dead flowers, leaves and seed pods. Clean the pot and saucer for display.

Annuals: Should not have any seed pods or faded flowers and should be placed neatly in a vase without bunching. Keep stems as long as possible.

Delphiniums: Cut overnight before the show, fill the hollow stem with water and plug with cotton wool or Oasis. Remove any seed pods.

Perennials: Long stems nicely placed in a vase. Remove dead flowers and seed pods.

Fruit: Good even sizes. Use leaves in the presentation.

Peas: Pick with scissors. Hold the stem not the pod so as not to spoil the bloom. Hold up to the light to check for a full pod.

Lettuce: Dig up rather than cut and ensure a good heart. Clean out any dirt and wash the roots but do not remove.

Spring Onions: Should be long and straight like a pencil.

Potatoes: Lift from the growing compost and wash and dry with a soft cloth. Put in a dark place. Best when about size of tennis ball or about 5" long for kidney shape.

Beetroot: Tennis ball size with a long taproot.

Broad Beans: Pods an even size and as clean and long as possible.

Cabbage: Good solid heads with stalk 3" long.

Carrots: Clean and as long as possible. Cut tops to 3".

Onions: About 3 weeks before the show, break the roots and peel back rough outer skin. Leave for a week then dig up, clean and dust with talc before putting in a cool place.

Shallots: Peel outer skin down to brown under-skin. Select even-sized bulbs and tie the tops down.

Tomatoes: Leave on the vine until the eve of the show. Place even-sized fruit on a plate.

Rules for Exhibitors

01. Please observe closing dates for acceptance of entry forms, opening times of the hall and times for staging.
02. Only Members may enter the shows. Membership includes all family living at the same address.
03. All exhibits displayed must be grown by, and come from, the exhibitor's garden or allotment. Flowers for arrangement classes may be bought. Pot plants must have been in the exhibitor's ownership for at least 3 months prior to the show. Exhibitors must make all domestic exhibits unless otherwise stated.
04. When judging is in progress only stewards are allowed in the hall.
05. A number of vases are available for exhibits if required, or exhibitors may provide their own containers, vases, etc.
06. A novice is anybody who has not entered a VPA show before.
07. The Shows will be concluded at time given. Announcement of results and the presentations will follow. Exhibits should be removed from the venue as soon as possible after the results.
08. The Committee reserves the right to visit by permission, before or after the Show, the Gardens or Allotments from which plants, fruit, flowers or vegetables have been entered for the Show in order to be satisfied that the rules governing competition exhibits are fulfilled.
09. Points are awarded as follows.

Collections	1 st = 8 points	2 nd = 6 points	3 rd = 4 points
Classes	1 st = 4 points	2 nd = 3 points	3 rd = 2 points

The exhibitor's highest award only in each Class to count.
10. The Committee will take all reasonable care of exhibits and containers, etc. but will not be responsible for any loss or damage.
11. In the event of a tie for points for a cup the exhibitor with the most firsts will be declared the winner.

Hints for Exhibitors

Carefully read the Schedule and Rules, especially the parts relating to the exhibits you are entering. Name your exhibits where possible.

An **Annual** is a plant which naturally and ordinarily begins its growth, seeds and dies naturally within twelve months.

A **Biennial** is a plant which naturally requires two seasons to complete its life-cycle.

A **Perennial** is a plant which lasts many years. This includes trees and shrubs, plants which grow from bulbs, corms and tubers, in fact all plants which are not Annuals or Biennials.

A **Tart** is defined as a pastry base with fruit or savoury filling and **without** a top crust.

In **Vegetable** Classes aim at uniformity of size. Large and coarse specimens do not usually win prizes.

A **Vase** is defined as any receptacle the height of which exceeds the diameter.

A **Bowl** is defined as any receptacle the diameter of which exceeds the height.

Finally, send in your Entry Forms early. Bring your exhibits to the Show as early as possible and on arrival obtain your cards from the officials.

Stage your exhibits in the space allotted for that particular Class.

Do not interfere in any way with other competitors' exhibits. If you have problems placing your exhibit, consult one of the Stewards.
